July 2021

Eswari Tiruveedulu

Camunda Developer

SUMMARY

Camunda Developer with 5 years of experience in Camunda BPMN, DMN, Java, and Spring Boot. Skilled in designing and enhancing workflow automation solutions, decision modeling, REST API development. Experience across Banking & Financial Services and Education domains, including Account Opening workflows, Process automation, and Flowable DMN migration. Passionate about delivering scalable, high-quality business process automation solutions in Agile environments.

EXPERIENCE

Perficient | Camunda Developer (May 12, 2025 – Present) | Hyderabad, India

Client: LPL Financial (Jul 2025 – Present)

Project: Account Opening Workflow & Power of Attorney (POA) Automation

- Developing and enhancing Camunda BPMN workflows and DMN decision models for the Account Opening process.
- Designing and maintaining DMN decision tables to automate business rules and validations.
- Implementing workflow enhancements based on business and regulatory requirements.
- Developing Java Spring Boot REST APIs integrated with Camunda workflows.
- Contributing to the automation of Power of Attorney (POA) document processing by collaborating with cross-functional teams.
- Performing defect analysis, impact analysis, and workflow troubleshooting.
- Writing JUnit test cases and maintaining code quality using SonarQube and CI/CD pipelines.
- Participating in Agile ceremonies including sprint planning, backlog refinement, estimation, and code reviews.

Client: University of Phoenix (May 2025 – Jul 2025)

Project: Flowable DMN Migration

- Migrated business rules from a legacy decision management platform to Flowable DMN.
- Developed and validated DMN decision tables based on business requirements.
- Collaborated with business analysts and development teams during rule migration and testing.
- Supported defect fixing, testing, and deployment activities.

Cognizant | Camunda Developer Oct 30, 2021 – May 9, 2025 | Hyderabad, India

Client: US Bank

Project: Customer Onboarding Workflow

- Developed Camunda BPMN workflows for customer onboarding processes.
- Built REST APIs using Java and Spring Boot for workflow integration.
- Worked on workflow enhancements, bug fixes, and production support activities.
- Participated in requirement gathering, triage calls, design discussions, and sprint refinement.
- Resolved SonarQube issues and maintained CI/CD quality gates.
- Developed unit test cases using JUnit to improve application reliability.
- Developed proof-of-concept (POC) solutions for workflow automation.
- Collaborated with clients and cross-functional teams to deliver high-quality workflow solutions.
