KAUSTUBH KAKADE

Pega Developer

Pune, India | 9881550412 | kaustubhkakade2206@gmail.com | LinkedIn | Pega Academy

PROFESSIONAL SUMMARY

Pega Developer with 4+ years of experience building and supporting enterprise Pega applications, combining strong hands-on development skills with deep platform administration expertise. Experienced in designing case management solutions, REST integrations, and end-to-end application builds, alongside managing DEV/QA/UAT/Production environments, Jenkins-based deployments, and production incident resolution. Also skilled in Nintex workflow development and Power BI dashboarding, with proven experience leading a team of 10.

TECHNICAL SKILLS

- Pega Platform: Case Management, REST Integrations, Pega Admin Studio, PDC
- Administration & DevOps: Environment Management (DEV/QA/UAT/Prod), Apache Tomcat, Jenkins, SSL Certificate Management.
- Support & Infrastructure: Production Support, Incident Root Cause Analysis, Linux, SQL Connectivity, ServiceNow
- Other Tools: Ninte, Power BI, Splunk, AppDynamics

PROFESSIONAL EXPERIENCE

Pega Developer / Pega Administrator | LTIMindtree *Jan 2022 – Present*

Pune, India

- Contributed to **Pega application development**, working alongside the support team to build, enhance, and troubleshoot case management solutions and REST integrations.
- Managed and maintained 25+ Pega servers across DEV, QA, UAT, and Production environments, ensuring high availability and performance.
- Led code deployments and release management activities using Jenkins, including planning and executing server patching cycles with minimal downtime.
- **Administered** Apache Tomcat servers, handled SSL certificate renewals, and monitored application health through Pega Admin Studio.
- Investigated and resolved production incidents through root cause analysis, supported by SFTP connectivity checks, Linux administration, and log analysis.
- **Worked as Nintex Developer**, designing and building automated business workflows; led a team of 10 as Team Lead, overseeing delivery and quality of workflow solutions.

KEY PROJECTS

Customer Onboarding Application (Pega)

- Independently designed and developed a customer onboarding application from scratch, including end-to-end case lifecycle design and REST integrations with external systems.

Job Portal Application (Pega)

- Built a standalone job-matching application from the ground up that automatically applies to relevant job postings on behalf of candidates based on skills and experience matching, using REST integrations to connect with job portal data.

Power BI Dashboards

- **Global Superstore Sales Dashboard** – built an interactive sales analytics dashboard independently, covering revenue, profit, and regional performance trends.
- **HR Analytics Dashboard** – designed an end-to-end HR analytics dashboard independently to visualize workforce metrics and trends.

CERTIFICATIONS

- Pega Certified Senior System Architect (CSSA) – Version 23 (2025)
- Pega Certified System Architect (CSA) – Version 8.7 (2022)

AWARDS & RECOGNITION
