RAJESH VARMA DANTULURI

Pega Certified Senior System Architect (CSSA)

+91 81850 21330 • rajeshvarma848@gmail.com • Hyderabad, India • *linkedin.com/in/rajeshvarma-dantuluri*

PROFESSIONAL SUMMARY

Pega Certified Senior System Architect with 9+ years of experience designing and delivering enterprise-grade BPM and case-management solutions on the Pega Infinity platform (7.4 through 8.8), and currently advancing toward Lead System Architect certification (Part 1 completed). Skilled in leading end-to-end application development, from requirements analysis and data modeling through integration, deployment, and production support. Hands-on experience migrating legacy Pega applications to the modern Constellation architecture, architecting REST/SOAP integrations, and implementing decisioning and background-processing frameworks for high-volume transactional systems. Proven technical lead with a track record of mentoring developers, driving Agile delivery, and presenting solutions directly to business and executive stakeholders, including client-facing engagements in Sydney, Australia.

CORE SKILLS

- Pega Infinity 8.8 / 8.6 / 8.3 / 7.4, PRPC
- Constellation Architecture & DX APIs
- Case Design, Data Modeling & Reusable Components
- REST & SOAP Integrations / Connectors & Services
- Decisioning: Decision Tables, Declarative Rules
- Background Processing: Queue Processors, Agents, Job Schedulers
- SQL, Database Design & Performance Tuning
- Agile/Scrum Delivery & DevOps CI/CD Pipelines
- Technical Leadership, Code Review & Mentoring

PROFESSIONAL EXPERIENCE

Lead Software Engineer | Virtusa Consulting Services Pvt Ltd *Feb 2023 – Present*

Project: Macquarie — *Pega Infinity 8.8, Constellation*

- Led modernization of Macquarie's legacy account management system, uplifting a decade-old Pega application into a modular Constellation-based platform while maintaining seamless coexistence with legacy and downstream systems.
- Partnered with business stakeholders on requirement analysis and feasibility studies to define modernization scope and system enhancements.
- Designed scalable data models, dynamic case types, and service-oriented architecture supporting wealth account onboarding and servicing.
- Built and integrated REST APIs for real-time data exchange across multiple upstream and downstream systems, ensuring data accuracy and consistency.
- Implemented core Pega rule types - Activities, Data Transforms, Decision and Declarative Rules, Reports, Flows and Background processing.
- Delivered complex user stories within Agile sprints, maintaining architectural guardrails and coding best practices.
- Mentored junior developers and associate consultants through code reviews and knowledge-sharing sessions, and presented solution demos to stakeholders.

Senior Consultant | Areteans Technologies Ltd *Feb 2021 – Feb 2023*

- Delivered Pega BPM solutions as a senior technical contributor, applying case design, integration, and decisioning expertise across client engagements.

Senior Developer | Coforge Technologies Ltd *Apr 2018 – Feb 2021*

- Built and enhanced Pega case management applications, gaining client-facing experience including an engagement in Sydney, Australia.

Associate Software Engineer | Incessant Technologies Ltd *Nov 2016 – Mar 2018*

- Started career developing Pega PRPC applications, building foundational skills in BPM design, rules development, and SQL.

EDUCATION

Bachelor of Technology in Computer Science

MVGR College of Engineering, Vizianagaram, India — 2016
